This report is not to be reproduced, copied or its entirety, without written approval from Certified Laboratories, Labstat. This report is a Certified Laboratories, Labstat certification. The results relate only to the material or product analyzed. Test results are considered an estimate and may vary after 1 year from test end date. Cannabinoid content of batch material may vary depending on sample error. Some results may be performed at third-party labs (DEA# RP0607436). ND=Not Detected, N/A=Not Analyzed, ppm = Parts Per Million, ppb = Parts Per Billion, Limit of Detection (LOD) and Limit of Quantitation (LOQ) are terms used to describe the smallest concentration that can be reliably measured by an analytical procedure. RPD = Reproducibility of the measurements. Action levels are State determined thresholds, available based on jurisdiction of measurement (LMI) for the analyte. The LOQ error is available from the lab upon request. The "Decision Rule" for the product does not include the LMI. The units are based on F.S. Rule 62.4310.
